

...training that makes a difference

Fire Protection Training & Consulting

Fire Tech Productions is focused on the training of individuals, groups and companies who work in the Fire Protection Industry. Our proven training products are available in a variety of formats- from customized training to self paced-online courses. We have a training format that fits everyone's learning style!

Who Needs Training?

From state requirements to local agencies and government contract obligations, more and more people are turning to NICET for their certification

Number of States requiring NICET certification in:

Automatic Sprinklers – 40

Fire Alarms – 26

Inspection & Testing – 10

Special Hazards – 17

How Are We Unique?

Our instructors and course developers experience range from 40+ years of industry experience to master's degrees.

How Have We Grown?

Since new owners took over in May of 2007, Fire Tech Productions has added over 100 online courses, webinars, texts, seminars and countless customized packages. Sales grew over 200% in their first year and 70% in 2009.

Who Has Fire Tech Productions Partnered With?

Fire Tech Production's has partnered with and utilizes Sinclair Community College's state-of-the-art Sprinkler Lab. Sinclair utilizes Fire Tech Production's Automatic Sprinkler Basics text for their beginning Fire Science students.

ABOUT

FIRE TECH PRODUCTION'S

Celebrating 24 years of NICET Prep training

We are a highly customer-focused company located in Dayton, OH.

Fire Tech Productions puts people first. Whether its connecting a student with an instructor to further explain a topic or providing links and additional resources for students wanting more, our goal is to achieve 100% satisfaction from ALL students.

Our leading-edge materials help prepare students for state and NICET exams. We offer CEU/CPD courses as well as hands-on training.

Training is available in audio, text, online, webinar and seminar format.

We specialize in customized courses and training packages for individuals, groups and corporations.

FIRE TECH PRODUCTION'S TESTIMONIALS

"I can't say enough good about your course, your response and the webinar format."

Robert L., Colorado

"Thanks for the great product and great customer service! Also for the "lagniappe" (LAN'-yap) which is Louisiana French for 'a little something extra'"

Sean C., Louisiana

"I really like the class thus far. You're so helpful and the instruction is great. This was a good investment for me."

Victor T., Maryland

"Your Basic Math Course is absolutely the easiest and best Math course I have ever taken"

Claudia M, Texas

"Your training is a step above the rest ... I learned in 4 days, 3 years worth of material."

Brandon Marks, Texas
